Todd

Just wanted to say "thank you" for all of your hard work on the funding of the Alternatives to Abortion program and the Healthy Marriage/Responsible Fatherhood program.

The Senate version of section 11.120 is perfect, and our hope is hat the House/Senate budget conferees will take the Senate's position:

This funds both he Alterna ives to Abortion program and the Heal hy Marriage/Responsible Fatherhood program at last year's levels (as passed by he General Assembly, at least), but knowing that Gov. Greitens would be unlikely to cut \$2,033,561 of GR from he Alterna ives to Abortion program like Gov. Nixon did, it is effectively a HUGE increase for alternatives to abor ion — he largest ever.

Sam

Only days remain. The 2017 session of the Missouri General Assembly ends Fr day, May 12, but the Missouri Senate has yet to act on major pro-life legislation.

Passing pro-life bills could be overlooked as other pr or ties take center stage. Let's make sure that doesn't happen. None of us want "abortion sanctuaries" in Missouri! Read this alert and then contact your State Senator immediately.

Stop Abortion Sanctuaries:

Creating "abort on sanctuaries" is the latest tactic of the abort on industry. The goal is to make ordinary citizens unwitting partners in the evil of abort on.

Under the guise of supposedly preventing discriminat on, a new St. Louis ordinance allows the city to fine Cathol c schools that refuse to hire teachers who espouse abortion. Landlords could also be fined if they refuse to rent to an abort on clinic.

 $\underline{\mathsf{HB}}\ 174$ or $\underline{\mathsf{SB}}\ 41$ (companion bills with similar provis ons) will make sure that doesn't happen. These bills overturn the St. Louis ordinance and prohib t any other city or town from passing a similar pro-abortion ordinance.

Stop the Trade of the Remains of Unborn Babies:

 $\underline{\sf SB~67}$ and $\underline{\sf HB~194}$ (companion bills with similar provis ons) prohib t the selling or donating of fetal remains from abortions. The bills also ensure abort on clinics undergo annual inspections.

The abortion industry in Missouri claims t does not participate in the trade of the remains of unborn babies, but we know this pract ce has occurred in other states. Passing SB 67 or HB 194 will make sure the trading of fetal body parts does not occur in Missouri.

Stalemate in the Senate:

The Missouri House has passed both of its major pro-life bills-HB 174 and HB 194. The Missouri Senate, however, has failed to pass e ther of the companion bills-SB 41 or SB 67. Ultimately, pro-life legislation will only pass this sess on if the Missouri Senate takes act on. To stop sanctuary cities, the Senate can pass e ther SB 41 or HB 174; to stop the trade of fetal body parts the Senate can pass e ther SB 67 or HB 194.

ACT NOW! CONTACT YOUR STATE SENATOR AND URGE IMMEDIATE ACTION ON PRO-LIFE BILLS.

Subject: Asking the Greitens Administration for help in funding for Queen of Peace, a Catholic Charities pro-life maternity home specializing in opioid/substance abuse, located in City of St. Louis

Will.

I am sure you are up to your eyeballs in flooding matters. Please hank he governor and the staff involved for being proactive in responding to he emergency and calling in he National Guard and other groups.

This budget matter may not be your bailiwick, but please pass this along to the person to whom it is. Any help you and they can give would be greally appreciated by me and he whole Catholic and pro-life community..

Since last year, we've been trying to get additional state funding for a pro-life maternity home in the City of St. Louis, the Ca holic Charities' Queen of Peace Center. Queen of Peace specializes in a very difficult population of pregnant and postpartum women and children – those with opioid and other substance abuse issues. These moms and kids require a higher level of treatment, and of course, it is much more expensive to care for them.

No one disputes the excellent work that Queen of Peace does, and in fact hey are part of <u>DMH's Comprehensive Substance Treatment and Rehabilitation (CSTAR) Program</u> for women and children, and currently get some funding from DMH. This Catholic Charities agency is the <u>largest women and children's CSTAR program in the state and boasts the largest number of drug-free births</u>.

At our request last year in the budget for the Division of Behavioral Health within DMH, then-Senate Appropriations Chairman Kurt Schaeffer added some specific language to the budget to provide Queen of Peace some extra help – specifically an additional \$254,518 (see the attached "Fact Sheet" from Queen of Peace). That language stayed in HB 10, was signed by Gov. Nixon, and was not line-item vetoed.

However, DMH took he posi ion that since the money for Queen of Peace was ied to existing funding and not new funding, DMH had no authority to actually spend the additional \$254,518. However, he Senate Appropriations staff wrote flexibility language in he appropria ion, plus the opportunity to transfer the money from he Department of Social Services (DSS) for his program.

Maybe DMH was being hyper-technical. Maybe it was the general tendency of the Nixon Administration to not fund programs that it had not initially proposed. Perhaps DSS didn't want to release the funds to DMH. Possibly it was pushback from the Missouri Coalition for Community Behavioral Healthcare, which thought we were robbing Peter to pay Paul.

Regardless, Queen of Peace did not get that additional money, although our understanding is that DMH agreed to provide them some one- ime funding to see hem through FY2016-2017.

This year, he Senate added the funding back in for Queen of Peace, in SCS HCS HB 10, in section 10.110 (an excerpt):

further provided that up to an additional \$254,518 may be used for substance abuse treatment services, by a non-profit Comprehensive Substance Treatment and Rehabilitation (CSTAR) residential facility located in a city not within a county, in conjunction with the Department of Social Services, provided to pregnant women, whose child will be eligible for MO HealthNet services, and who are at risk of substance abuse, including opioid addiction

Queen of Peace started getting some of the Alternatives to Abortion (A2A) funding for the first time in February, but frankly, once the A2A program was effectively transferred last year to DSS from OA for the program's administra ion, we've gotten numerous complaints from the pro-life agencies about how difficult it has become to apply for and qualify for reimbursement under A2A. But that is a discussion for another time.

What we are asking for is hat the Greitens Administration, DMH, DSS – whomever – do what it can during this last week when the budget needs to be approved (e.g., speak to he House/Senate budget conferees to keep the language or modify it to make it work) – and later – to help Queen of Peace. We have done what we can to try to get extra funds for them, but we need someone somewhere within the executive branch to work to find a solution. I know hat Lara Pennington, he executive director of the agency, and her staff would be delighted to have Gov. Greitens and the First Lady come and visit so they can see firsthand the important work they are doing.

Print Page 6 of 47

Thank you for considering this during what I know is a very busy ime.

Family-Centered Treatment With Hope, Dignity and Respect is a family-centered BEHAVIORAL healthcare provider FOR WOMEN WITH ADDICTION, their children and families. QUEEN OF PEACE CENTER

TAX CREDIT INFORMATION

Donations of \$100 or more to Queen of Peace Center may be eligible for 50% Missouri state Tax Credit.

Queen of Peace Center qualifies for the State of Missouri "Maternity Home Tax Credit" program enacted under state statute 135.600 R.S. Mo.

Missouri state 50% tax credits are available to any Missouri taxpayer, whether an individual, corporation, firm or S corporation doing business in the state of Missouri and Applications for tax credit must be completed within the year of the donation.

Any portion of the tax credit unused in the qualifying year is subject to carry forward to the next succeeding four (4) taxable years.

These tax credits are non-transferable.

The Maternity Home Tax Credit was expanded, effective January 1, 2001 to include not only cash donations, but stocks, bonds, other marketable securities or real property.

SUSAN SULAN SULAN

Dear Samuel,

I wanted you to be aware that pro-life bills in your state legislature are stuck and may not pass before the May 12^{th} deadline. It seems the Missouri state Senate has slowed down to a crawl... leaving pro-life legislation in a dangerous post on.

The stakes are very high. It is critical that your legislature exert state influence to stop the St. Louis Board of Aldermen's anti-discriminat on measure to make St. Louis a "sanctuary city" for abortion. Another bill would defund Planned Parenthood, and yet another would forbid the use of aborted fetal tissue in experimentat on and require it to be disposed of in a dignified manner. And SBA List's top state pr ority, banning abort on at 20 weeks when the baby can feel pain, is stuck way back in the House.

Click here to send a message to your state senator right now to tell them to allow pro-life legislation to advance >>

Print Page 17 of 47

Your new Governor, Er c Greitens, is strongly pro-life and wants to lead on the issue. The legislature, hamstrung now by the state Senate, must give Governor Gre tens the tools he needs to protect Missouri lives!

I know you don't want St. Louis – or any other city in Missouri – to be a 'sanctuary c ty' for abortion. But did you know that the whole country is watching and wa ting for your legislature to do something to stop it?

There is no excuse to allow the St. Louis discriminatory actions to stand, or to turn a blind eye to the lives of unborn babies, in the name of politics as usual.

<u>Please cl ck here to tell your state Senator today to do their job</u> and protect women and babies in Missouri by allowing pro-life legislation to move, and move quickly!

For Life,

Hon. Marilyn Musgrave V ce President of Government Affairs Susan B. Anthony List

House Floor Coverage 10:00 a.m. to Morning Recess.

Approval of Journal

Introduction of Special Guests

Reports from Committee

Fiscal Review Committee has recommended SB 240 do pass.

SBs for Third Reading

SB 194 (Wallingford/Trent) Relating to the Accreditation of Managed Care Plans. Provides that a managed care plan's network is adequate if the health carrier is accredited by the Accreditation Association for Ambulatory Health Care.

Rep. Trent explained that this adds an accreditation to the qualified criteria for managed care plan's network. This is a non-controversial bill.

Rep. Trent explained that this would add that fire departments can seal records similar to how HIPAA related documents are sealed.

HA 2 (Helm) - Adopted by VV

Rep. Helm explained that this allows LPNs to provide daily care without the supervision of an RN.

HA 3 (Franklin) - Adopted by VV
 Rep. Franklin explained that this is the volunteer care bill. It allows a provider to offer non-compensated care in an area where they have necessary

Rep. Haefner explained that this requires insurance companies who enter into a contract with a provider to update their listing within 10 days.

HA 5 (Ruth) - Adopted by VV

- Rep. Ruth explained that this amendment is the newborn screening language and has been voted out of the House with 150 yes votes.

 HA 1 to HA 5 (Pike) Adopted by VV -
 - - Rep. Pike explained that this amendment adds the designation of the month of November as Diabetic Awareness Month.

- HA 6 (Rowland) Adopted by VV

 Rep. Rowland explained that this does away with the mileage limitation on APRNs for collaboration with physicians. This also takes away the number of nurses allowed to be in collaboration with one doctor.

 - Rep. Lauer thanked Rep. Rowland for the amendment speaking in support.
 Rep. Frederick expressed concern with increasing the number of APRNs to be in collaboration with physicians as it dilutes the quality of care.

- Rep. Reiboldt agreed with Rep. Frederick that increasing the collaboration limits would be unsafe.

 Gent. from St. Louis City spoke in support of the amendment.

 Rep. Franklin inquired of Rep. Rowland asking if the amendment was heard in committee. Rep. Franklin did not recall an increase in mid-levels coming out of committee, just the increase in radius. Rep. Rowland acknowledged that the number of mid-levels did not come out of committee. Rep. Franklin talked about the need to address shortages in rural areas such as Rep. Rowland's district, but she urged the body to vote the amendment down.
- Gent. from Jefferson asked if the amendment restricts doctors from taking on certain APRNs. Rep. Rowland stated that this takes the mileage limits away and does not force any physicians to take on any additional APRNs. Gent. from Jefferson spoke in support of the amendment saying that it will address shrages in rural areas.

 Rep. Hubrecht spoke in support of this amendment sating that it will address shrages in rural areas.

 Rep. Love spoke in support of this amendment stating that his area depends greatly on nurse practitioners. He stated that medical professionals are just
- trying to protect their territory.
- Gent. from Caldwell asked Rep. Rowland if this amendment would allow a physician in a different state to supervise an APRN. Rep. Rowland responded that he is assuming that they cannot.

 Rep. Lavender discussed with Rep. Hubrecht that this also addresses our shortage of physicians. Some clinics in rural areas will have to close if we do not
- do this.
- Rep. Reiboldt stated that he originally misunderstood the geographic limitations of these amendments. He stated that one of the problems with this amendment is that these individuals work as a team with the physician at the top of that team. The reason for the geographic limit is so that in the case the physician needs to see the patient, the physician is close enough to get to them. These APRNs are practicing under the overseeing physician's malpractice insurance.
- Rep. Kelly inquired of Rep. Hubrecht asking if there are studies that prove mileage radius improves the quality of care. Rep. Hubrecht stated that this has not been proven and if it was they would not have passed Telehealth

HA 7 (Smith) - Adopted by VV

Rep. Smith explained that this makes it easier for in-home healthcare providers to hire their employees.

HA 8 (Barnes) - Adopted by VV

Rep. Barnes explained that this has dentists in emergency rooms and other licensing issues that have been voted out of the House before.

HA 9 (Taylor) - Adopted by VV

Rep. Taylor explained that this was added last year for telemonitoring pilot programs. This will expand to statewide.

HA 10 (Lichtenegger) - Adopted by VV

Rep. Lichtenegger explained that this amendment requires physical therapy services paid at private entities to be paid at same rate as rates at a hospital.

Print Page 20 of 47

Rep. Carpenter confirmed that this has been heard in committee and physical therapists are in support of this effort. He concluded that this creates a parity between private physical therapists and those at hospitals.

HA 11 (Crawford) - Adopted by VV

- Rep. Crawford explained that this amends "stemi-standards".
 - o HA 1 to HA 11 (Morris) Adopted by VV
 - Rep. Morris explained that this amendment is SB 455 which allows for the prescribing of a three day supply of certain drugs.
 - Rep. Quade spoke in opposition to the amendment due to concerns surrounding the sharing of data.

HA 12 (Lauer) - Adopted by VV

Rep. Lauer explained that this gives paramedics the opportunity to provide specialized medications to individuals with certain conditions.

HA 13 (Pike) - Adopted by VV

- · Rep. Pike explained this is HB 316.
- Rep. ? asked why the amendment includes a line about the Canadian certification. Rep. Pike explained that we have psychologists come down from Canada to practice here. The purpose of this bill is to train and maintain psychologists.

HA 14 (Evans) - Adopted by VV

- Rep. Evans explained that this deals with the expansion of the use of CDB oil.
 - o HA 1 to HA 14 (McCreery) Adopted by VV
 - Rep. McCreery explained that this prohibits shackling of pregnant offenders.
 - Lady spoke in support because the amendment is supported by MO Right to Life.
 - Rep. Frederick urged the body to support this amendment as good treatment for fellow human beings.

HA 15 (Dunn) - Adopted by VV

• Rep. Dunn explained that this is related to the Jason Flatt Act. It has been amended to address an earlier concern and changes a "shall" to a "may."

HA 16 (Schroer) - Adopted by VV

- Rep. Schroer explained that this deals with juvenile suicide.
- Lady from St. Louis County asked him to explain further. Rep. Schroer explained that this is HB 274 which was voted out of House on SB 50 last week with
 unanimous support.
- Rep. Frederick spoke in support of the amendment. They discussed that in contrast with the fiscal note and the predicted cost of this bill, the evidence actually shows cost sayings.

HA 17 (Sommer) - Adopted by VV

- . Rep. Sommer explained that the amendment adds a definition for mental health service dogs to the definition of service dogs in statute.
 - o HA 1 to HA 17 (Walker) Adopted by VV
 - Rep. Walker explained that this would establish September as Sickle Cell Disease Awareness Month.
 - Rep. Frederick spoke in favor of the amendment to the amendment.
- Gent. from St. Charles asked for an explanation of the amendment. Rep. Sommer explained that for example this would help veterans suffering from PTSD or
 children with a mental illness to deal with their illness. She gave examples of situations where a dog can be trained to intervene in triggering situations for
 certain individuals.

HA 18 (Hubrecht) - Adopted by VV

- Rep. Hubrecht explained that this is language requested by Department of mental Health to make them compliant with federal changes to keep them eligible for federal funding. She added that this must be done this year.
- Rep. Arthur spoke in support of the amendment.

HA 19 (Brattin) - Adopted 106-40.

- Rep. Brattin explained that this is the same as HB 194 as perfected regarding abortion and the disposal of human remains.
 - o Rep. Moon inquired of Rep. Brattin asking for further explanation of the amendment. Rep. Brattin explained that this is the bill that they debated in length to ensure that remains of fetuses are disposed of properly and not sold on the black market.
 - o HA 1 to HA 19 (Moon) Adopted 101-39.
 - Rep. Moon explained that this amendment makes abortions illegal. He has named it the Missouri Right to Life bill. He expressed frustration with the Body and the Missouri Right to Life just passing bills to regulate abortion rather than to end abortion.
 - Rep. May expressed concern for offering and adopting this type of amendment on this non-controversial bill which will further slowdown the process.
 - Rep. Meredeth inquired of Rep. Moon stating that Rep. Moon said himself that he did not believe in putting unrelated items on bills.
 He pointed out that Rep. Moon is weighing two different principles here.
 Rep. Moon insinuated that he would vote in favor of this amendment, but in opposition to the underlying bill stating that his principles will stay intact.
 - Rep. Trent expressed concern that if this amendment goes on the bill it will force it to go to Fiscal Review and could kill the
 underlying bill.
 - PQ 95-45.
- Rep. Lavender spoke in opposition to the amendment stating that the use of fetal tissue has led to many advancements in healthcare. This will take away the
 woman's right to donate this tissue.
- PQ 101-41.

HA 20 (Bondon) - Adopted by VV

- Rep. Bondon's explanation was unclear.
- Lady from St. Louis County spoke in favor of the amendment. She stated that this would streamline the process.

HA 21 (Dogan) - Adopted by VV

- Rep. Dogan did not initially explain the amendment.
- Rep. May asked for an explanation. Rep. Dogan stated that this is the "long acting reversal contraceptives."?
- Lady from Stoddard stated that this is fiscally responsible and will save the state money if we can repurpose this prescriptions. She stated that this is a government efficiency bill.

PQ 95-39.

Pursuant to House Rule 53 the bill will hold its place on the calendar and is subject to fiscal review.

OA.Hearing & Floor Action To

Cc

House Floor Coverage 10:00 a.m. to Morning Recess.

Approval of Journal

Introduction of Special Guests

Reports from Committee

Fiscal Review Committee has recommended SB 240 do pass.

SBs for Third Reading

SB 194 (Wallingford/Trent) Relating to the Accreditation of Managed Care Plans. Provides that a managed care plan's network is adequate if the health carrier is accredited by the Accreditation Association for Ambulatory Health Care.

Rep. Trent explained that this adds an accreditation to the qualified criteria for managed care plan's network. This is a non-controversial bill.

Rep. Trent explained that this would add that fire departments can seal records similar to how HIPAA related documents are sealed.

HA 2 (Helm) - Adopted by VV

Rep. Helm explained that this allows LPNs to provide daily care without the supervision of an RN.

HA 3 (Franklin) - Adopted by VV
 Rep. Franklin explained that this is the volunteer care bill. It allows a provider to offer non-compensated care in an area where they have necessary

Rep. Haefner explained that this requires insurance companies who enter into a contract with a provider to update their listing within 10 days.

HA 5 (Ruth) - Adopted by VV

- Rep. Ruth explained that this amendment is the newborn screening language and has been voted out of the House with 150 yes votes.

 HA 1 to HA 5 (Pike) Adopted by VV -
 - - Rep. Pike explained that this amendment adds the designation of the month of November as Diabetic Awareness Month.

- HA 6 (Rowland) Adopted by VV

 Rep. Rowland explained that this does away with the mileage limitation on APRNs for collaboration with physicians. This also takes away the number of nurses allowed to be in collaboration with one doctor.

 - Rep. Lauer thanked Rep. Rowland for the amendment speaking in support.
 Rep. Frederick expressed concern with increasing the number of APRNs to be in collaboration with physicians as it dilutes the quality of care.

- Rep. Reiboldt agreed with Rep. Frederick that increasing the collaboration limits would be unsafe.

 Gent. from St. Louis City spoke in support of the amendment.

 Rep. Franklin inquired of Rep. Rowland asking if the amendment was heard in committee. Rep. Franklin did not recall an increase in mid-levels coming out of committee, just the increase in radius. Rep. Rowland acknowledged that the number of mid-levels did not come out of committee. Rep. Franklin talked about the need to address shortages in rural areas such as Rep. Rowland's district, but she urged the body to vote the amendment down.
- Gent. from Jefferson asked if the amendment restricts doctors from taking on certain APRNs. Rep. Rowland stated that this takes the mileage limits away and does not force any physicians to take on any additional APRNs. Gent. from Jefferson spoke in support. Rep. Hubrecht spoke in support of the amendment saying that it will address shrages in rural areas. Rep. Love spoke in support of this amendment stating that his area depends greatly on nurse practitioners. He stated that medical professionals are just
- trying to protect their territory.
- Gent. from Caldwell asked Rep. Rowland if this amendment would allow a physician in a different state to supervise an APRN. Rep. Rowland responded
- that he is assuming that they cannot.

 Rep. Lavender discussed with Rep. Hubrecht that this also addresses our shortage of physicians. Some clinics in rural areas will have to close if we do not do this.
- Rep. Reiboldt stated that he originally misunderstood the geographic limitations of these amendments. He stated that one of the problems with this amendment is that these individuals work as a team with the physician at the top of that team. The reason for the geographic limit is so that in the case the physician needs to see the patient, the physician is close enough to get to them. These APRNs are practicing under the overseeing physician's malpractice insurance.
- Rep. Kelly inquired of Rep. Hubrecht asking if there are studies that prove mileage radius improves the quality of care. Rep. Hubrecht stated that this has not been proven and if it was they would not have passed Telehealth

HA 7 (Smith) - Adopted by VV

Rep. Smith explained that this makes it easier for in-home healthcare providers to hire their employees.

HA 8 (Barnes) - Adopted by VV

Rep. Barnes explained that this has dentists in emergency rooms and other licensing issues that have been voted out of the House before.

HA 9 (Taylor) - Adopted by VV

Rep. Taylor explained that this was added last year for telemonitoring pilot programs. This will expand to statewide.

HA 10 (Lichtenegger) - Adopted by VV

Rep. Lichtenegger explained that this amendment requires physical therapy services paid at private entities to be paid at same rate as rates at a hospital.

Print Page 23 of 47

Rep. Carpenter confirmed that this has been heard in committee and physical therapists are in support of this effort. He concluded that this creates a parity between private physical therapists and those at hospitals.

HA 11 (Crawford) - Adopted by VV

- Rep. Crawford explained that this amends "stemi-standards".
 - o HA 1 to HA 11 (Morris) Adopted by VV
 - Rep. Morris explained that this amendment is SB 455 which allows for the prescribing of a three day supply of certain drugs.
 - Rep. Quade spoke in opposition to the amendment due to concerns surrounding the sharing of data.

HA 12 (Lauer) - Adopted by VV

• Rep. Lauer explained that this gives paramedics the opportunity to provide specialized medications to individuals with certain conditions.

HA 13 (Pike) - Adopted by VV

- · Rep. Pike explained this is HB 316.
- Rep. ? asked why the amendment includes a line about the Canadian certification. Rep. Pike explained that we have psychologists come down from Canada to practice here. The purpose of this bill is to train and maintain psychologists.

HA 14 (Evans) - Adopted by VV

- Rep. Evans explained that this deals with the expansion of the use of CDB oil.
 - HA 1 to HA 14 (McCreery) Adopted by VV
 - Rep. McCreery explained that this prohibits shackling of pregnant offenders.
 - Lady spoke in support because the amendment is supported by MO Right to Life.
 - Rep. Frederick urged the body to support this amendment as good treatment for fellow human beings.

HA 15 (Dunn) - Adopted by VV

Rep. Dunn explained that this is related to the Jason Flatt Act. It has been amended to address an earlier concern and changes a "shall" to a "may."

HA 16 (Schroer) - Adopted by VV

- Rep. Schroer explained that this deals with juvenile suicide.
- Lady from St. Louis County asked him to explain further. Rep. Schroer explained that this is HB 274 which was voted out of House on SB 50 last week with
 unanimous support.
- Rep. Frederick spoke in support of the amendment. They discussed that in contrast with the fiscal note and the predicted cost of this bill, the evidence actually shows cost sayings.

HA 17 (Sommer) - Adopted by VV

- . Rep. Sommer explained that the amendment adds a definition for mental health service dogs to the definition of service dogs in statute.
 - o HA 1 to HA 17 (Walker) Adopted by VV
 - Rep. Walker explained that this would establish September as Sickle Cell Disease Awareness Month.
 - Rep. Frederick spoke in favor of the amendment to the amendment.
- Gent. from St. Charles asked for an explanation of the amendment. Rep. Sommer explained that for example this would help veterans suffering from PTSD or
 children with a mental illness to deal with their illness. She gave examples of situations where a dog can be trained to intervene in triggering situations for
 certain individuals.

HA 18 (Hubrecht) - Adopted by VV

- Rep. Hubrecht explained that this is language requested by Department of mental Health to make them compliant with federal changes to keep them eligible for federal funding. She added that this must be done this year.
- Rep. Arthur spoke in support of the amendment.

HA 19 (Brattin) - Adopted 106-40.

- Rep. Brattin explained that this is the same as HB 194 as perfected regarding abortion and the disposal of human remains.
 - o Rep. Moon inquired of Rep. Brattin asking for further explanation of the amendment. Rep. Brattin explained that this is the bill that they debated in length to ensure that remains of fetuses are disposed of properly and not sold on the black market.
 - o HA 1 to HA 19 (Moon) Adopted 101-39.
 - Rep. Moon explained that this amendment makes abortions illegal. He has named it the Missouri Right to Life bill. He expressed frustration with the Body and the Missouri Right to Life just passing bills to regulate abortion rather than to end abortion.
 - Rep. May expressed concern for offering and adopting this type of amendment on this non-controversial bill which will further slowdown the process.
 - Rep. Meredeth inquired of Rep. Moon stating that Rep. Moon said himself that he did not believe in putting unrelated items on bills.
 He pointed out that Rep. Moon is weighing two different principles here.
 Rep. Moon insinuated that he would vote in favor of this amendment, but in opposition to the underlying bill stating that his principles will stay intact.
 - Rep. Trent expressed concern that if this amendment goes on the bill it will force it to go to Fiscal Review and could kill the
 underlying bill.
 - PQ 95-45.
- Rep. Lavender spoke in opposition to the amendment stating that the use of fetal tissue has led to many advancements in healthcare. This will take away the
 woman's right to donate this tissue.
- PQ 101-41.

HA 20 (Bondon) - Adopted by VV

- Rep. Bondon's explanation was unclear.
- Lady from St. Louis County spoke in favor of the amendment. She stated that this would streamline the process.

HA 21 (Dogan) - Adopted by VV

- Rep. Dogan did not initially explain the amendment.
- Rep. May asked for an explanation. Rep. Dogan stated that this is the "long acting reversal contraceptives."?
- Lady from Stoddard stated that this is fiscally responsible and will save the state money if we can repurpose this prescriptions. She stated that this is a government efficiency bill.

PQ 95-39.

Friends

Here is a graphic representation of just <u>some</u> of the commonsense health & safety abortion clinic regulations – in effect since 1987 – that a federal district judge has enjoined from enforcement. They include requirements for hospital backup, fire alarms and extinguishers, smoke detectors and he ability to get a patient injured by an abortion procedure on a stretcher to get her to a street-level exit.

This is a sampling of those provisions Planned Parenthood does not want enforced by state health officials, in order for Planned Paren hood to be able to open or reopen four additional abor ion facilities in Missouri.

Missouri Attorney General Josh Hawley is appealing the ruling.
